“

We only dump on the ends and not on the go to be efficient. The Crary® Big Top™ is a must! Would I recommend it to another farmer? Yes. It is a must!

- Herbert R. of Illinois

”

BIG TOP™

Combine hopper extensions.

As equipment gets bigger, faster and more efficient, the ability to move, store and simply handle your yield becomes especially important. Better farming practices, larger fields and bumper crops all lead to more frequent unloading of your combine. The difference between making a full round, or harvesting an extra few minutes may be accomplished with more capacity. Crary® designs and engineers each Big Top™ with 3D laser scanning accuracy to ensure optimum fit and innovation for future improvements.

- ✓ PERFECT SIZE: The Crary Big Top fits most combines.**
- ✓ DURABLE: All steel components are powder-coated for a seamless look and to resist wear.
- ✓ GREAT CLEARANCE: Crary Big Tops fold down, giving you the clearance you need for storage.
